

## MentalPay (MTP) — Whitepaper

---

### Vision

**MentalPay (MTP)** is a utility-focused token designed to empower therapists, clients, and mental wellness platforms. It aims to bridge neuroscience, therapy, and decentralized finance, creating a sustainable and empowering reward ecosystem for real mental health engagement.

MentalPay is not just a cryptocurrency — it's a **value layer for mental wellness**, integrating transparent reputation, incentivized care, gamification, and plug-in-based payment systems across telehealth and neurotech services.

---

### Core Use Cases

- **Therapist Compensation** — Used as a transparent, decentralized payment option for digital mental health sessions.
  - **Gamified Incentives** — Distributed via quests, surveys, collaborations, and digital tool usage.
  - **Staking & Governance** — Token holders can stake for rewards and vote in governance proposals.
  - **MentalPass NFT Integration** — Users earn “Proof of Expertise” NFTs based on verified hours or earned MTP.
- 

### Philosophy

MentalPay is **not a speculative memecoin**, but a mission-aligned, utility-driven token with a focus on **neurodiverse dignity, evidence-based care, and platform interoperability**. The long-term goal is to support a healthier digital ecosystem where **tokenomics align with real therapeutic value**.

---

### Technical Info

- **Blockchain:** Binance Smart Chain (BSC)
- **Token Name:** MentalPay
- **Token Symbol:** MTP
- **Total Supply:** 50,000,000 MTP
- **Contract:** [Verified on BscScan](#)
- **Token Type:** BEP-20

## Allocation & Vesting Plan

| Category             | Allocation | Vesting / Notes                           |
|----------------------|------------|---|
| Airdrops & Community | 5%         | Based on participation & contribution     |
| Team & Founders      | 20%        | Locked 12 months, then linear over 24 mo. |
| Strategic Partners   | 10%        | Locked 6 months                           |
| Reserve / Treasury   | 20%        | DAO-governed in future                    |
| Staking Rewards      | 10%        | Released gradually                        |
| Ecosystem Incentives | 10%        | For gamification, MentalPass, plugins     |
| Public DEX Sale      | 25%        | Sold on decentralized exchanges           |

---

## Vesting Strategy

- **Founders & Team:** Smart contract-controlled vesting with transparency.
  - **Staking Rewards:** Gradually released through contract over time.
  - **DAO Reserve:** Will eventually shift to multisig + DAO governance.
- 

## Roadmap (Key Milestones)

### Phase

### Goals

**Phase 1** Launch token, verified contract, tokenomics design

**Phase 2** Initial airdrops & gamification-based distribution

**Phase 3** Launch of MentalPass NFT program and plugin beta

**Phase 4** Strategic partnerships and staking functionality

**Phase 5** Telehealth platform plugins, DEX liquidity expansion

**Phase 6** Wrapped MTP (WMTP) & multichain bridge exploration

**Phase 7** Community DAO governance, treasury deployment

---

## Future Utilities

- Telehealth platform plugin for accepting MTP as therapist payment.

- MentalPass NFTs for verifying service expertise.
  - Wrapped MTP (WMTP) for cross-chain compatibility.
  - Token-based loyalty rewards on therapy platforms.
- 

#### □ Governance

Holders of staked MTP will be eligible for:

- Voting on future features and roadmap updates.
  - DAO-based treasury allocation.
  - Platform partner integrations and reward updates.
-
